📞 0813 746 4039

A result-driven and strategic professional with extensive experience in developing and deploying APIs and integrating them with web and mobile applications. Possess in-depth knowledge of system architecture, database administration, and user experience design, with high proficiency in C#, Entity Framework Core, Java, and SQL. Adept at developing and integrating enterprise applications, while delivering high-quality software solutions that meet and exceed client expectations.

SKILLS

- Enterprise Application Development & Integration
- Application Programming Interfaces
- Debugging
- User Experience Design
- Troubleshooting
- Project Management
- C# Programming
- Database Administration
- System Architecture/Modelling
- Performance Optimisation
- UI Testing

PROFESSIONAL EXPERIENCE

Since
March
2021

• Lead Backend Developer

Chithub Company Limited Abuja, Nigeria.

- Transitioned from an intern to a contract staff Backend Developer within 5 months and subsequently to Lead Backend Developer.
- Support developers in building and deploying REST APIs for various web and mobile applications
- Lead a team of backend developers, providing guidance, mentorship, and technical leadership.
- Set coding standards, best practices, and ensure adherence to development methodologies.
- Built an API that managed pharmacy verification, registration, and licensing, and integrated QR code generation for pharmacies
- Built an API for a web application that managed election results for INEC
- Worked on system architecture, database administration, and user experience design, and participated in the entire application lifecycle, focusing on coding and debugging.
- Provide direct support and contribute to project management efforts to ensure timely delivery of software solutions.
- Make informed recommendations on technology adoption based on project requirements and industry trends.

PROFESSIONAL EXPERIENCE

- Since October 2022
- **Backend Development Tutor**
Application Laboratory Abuja, Nigeria
 - Designed and developed a comprehensive curriculum covering fundamental and advanced C# backend concepts, tailored to meet the diverse learning styles of students.
 - Conducted interactive coding sessions, emphasising practical implementation and problem-solving skills.
 - Enabled students to gain hands-on experience in building scalable and efficient backend systems using C#.
 - Provided personalised coaching and mentoring to students, addressing their unique learning needs.
 - Fostered a supportive learning environment that encouraged questions, collaboration, and critical thinking.
- From October 2021 to October 2022
- **UI/UX Designer**
Application Laboratory Abuja, Nigeria.
 - Identified and resolved UX issues.
 - Collaborated with cross-functional teams to gather and analyze user requirements, ensuring alignment with business goals.
 - Created wireframes, prototypes, and high-fidelity designs for web and mobile.
 - Worked closely with developers to ensure seamless implementation of design concepts.
- From June 2019 to 2021
- **Graphics Designer**
Charvid Digital Press Abuja, Nigeria
 - Designed and printed various marketing materials including birthday cards, complementary cards, brochures, and books.
 - Managed client proposals from typesetting through to graphic design, print and production
 - Liaised with the production teams to ensure deadlines were met and material were printed to the highest quality
 - Integrated company values into design work to effectively demonstrate the nature of the company and attract customers..
- From June 2017 to December 2017
- **Intern Android Developer**
Start Innovation Hub Uyo, Akwa Ibom
 - Designed and built mobile user interfaces using Android Studio
 - Took effective steps to test and debug mobile application codes and troubleshoot to locate and define problems within the software or code.
 - Performed unit-testing code for robustness, including edge cases, usability, and general reliability.
 - Actively participated in review and user feedback sessions to gather input to apply rapid changes for prototype iterations.

EDUCATION

- From 2014 to 2018
- **BACHELOR OF SCIENCE IN COMPUTER SCIENCE**
Cross River University of Technology Calabar, CR, Nigeria

ADDITIONAL PROFESSIONAL DEVELOPMENT

- C# Basics Certification from Udemy
- Android Development Intermediate Bundle Certification from Andela Learning Community (ALC).
- Completed ASP .NET Core Web API on (Udemy)
- Completed Docker and Kubernetes Practical Guide (Udemy)
- Enrolled and learning **Docker for .NET Developer** (Udemy)

TECHNICAL PROFICIENCIES & FUNCTIONAL EXPERTISE

- Programming Languages: (C#, Java and Python)
- SaaS application development
- Project Management
- Database management: (MSSQL, MySQL, PostgreSQL, MongoDB, DBeaver)
- Version Control: (Git)
- DevOps: (Docker, AWS, GitHub)
- Backend Frameworks: (ASP .NET Core)
- API Documentation: (Postman, Swagger, Apidog)
- User Experience: (Figma)
- Microservice Architecture
